DETERMINATION

Preliminary Injury Inquiry
No. PI-2020-004

Concrete Reinforcing Bar

*Determination issued
Monday, November 23, 2020*

IN THE MATTER OF a preliminary injury inquiry, pursuant to subsection 34(2) of the *Special Import Measures Act*, respecting:

CONCRETE REINFORCING BAR

PRELIMINARY DETERMINATION OF INJURY

The Canadian International Trade Tribunal, pursuant to the provisions of subsection 34(2) of the *Special Import Measures Act*, has conducted a preliminary injury inquiry into whether the evidence discloses a reasonable indication that the dumping of hot-rolled deformed steel concrete reinforcing bar in straight lengths or coils, commonly identified as rebar, in various diameters up to and including 56.4 millimetres, in various finishes, excluding plain round bar and fabricated rebar products, originating in or exported from the People's Democratic Republic of Algeria, the Arab Republic of Egypt, the Republic of Indonesia, the Italian Republic, Malaysia, the Republic of Singapore and the Socialist Republic of Vietnam, has caused injury or retardation or is threatening to cause injury, as these words are defined in the *Special Import Measures Act*. The product definition also excludes "10 mm diameter (10M) rebar produced to meet the requirements of CSA G30 18.09 (or equivalent standards) and coated to meet the requirements of epoxy standard ASTM A775/A 775M 04a (or equivalent standards) in lengths from 1 foot (30.48 cm) up to and including 8 feet (243.84 cm)".

This preliminary injury inquiry follows the notification, on September 22, 2020, that the President of the Canada Border Services Agency had initiated an investigation into the alleged injurious dumping of the above-mentioned goods.

Pursuant to subsection 37.1(1) of the *Special Import Measures Act*, the Canadian International Trade Tribunal hereby determines that there is evidence that discloses a reasonable indication that the dumping of the above-mentioned goods has caused injury or is threatening to cause injury to the domestic industry.
